Describe how the LEA is coordinating Title II funds with the expenditure of Educator Effectiveness Block Grant funds to support teachers and administrators.

New Los Angeles Charter Elementary School has coordinated Title II Funds with the expenditure of Educator Effectiveness Block Grant funds to further support our educators to reduce teacher turnover. Title II funds will support teachers participating in high quality educator induction programs, certification program aligned with challenging state academic standards) evidence-based and are designed to improve classroom instruction and student learning and achievement as well as increase the retention of effective

teachers. (ESEA sections 2101(c)(4)(B)(vii)(III) and 2103(b)(3)(B)(iv)). In addition, Title II Funds support teachers with evidence-based instructional coaching in Cognitively Guided Instruction for Mathematics (CGI Math) through the UCLA Math Project that provides extensive coaching and training for teachers.

Educator Effective Funds will be used to supplement Title II Funds and provide teachers with additional professional development and coaching on Cognitively Guided Instruction Math. CGI helps teachers understand how students mathematical ideas develop and provides an opportunity to build on their own thinking through the UCLA Math Project (UCLAMP).

New LA Charter Elementary School educators, paraprofessionals and administrators will participate in professional learning that focuses on Diversity, Equity, and Inclusion (DEI) to build an inclusive environment and achieve equity, racial justice, and positive transformational change, that will provide our staff with strategies to engage students, families and effectively address barriers to learning. Providing equitable access to education and supporting tolerance of those who look different or have special needs creates a positive effect on learning.

Educator Effectiveness Funds will also be used to provide teachers, paraprofessionals, and administrators with Coaching on Restorative Practices, that focus on creating a positive school culture/climate, in alignment with our school's Multi-Tiered System of Supports (MTSS) and Positive Behavioral Interventions and Supports (PBIS).

Describe how the LEA allowed schoolsite and content staff to identify the topic or topics of professional learning.

New LA Charter Elementary School meaningfully consulted with its certificated and classified staff during staff meetings and professional development, in addition to staff surveys that are administered regularly. The Leadership Team considered findings from survey results, feedback from staff meetings; schoolwide data, student achievement internal data (i-Ready Assessment), and findings from classroom observations.

New LA Charter Elementary School administers i-Ready Reading and math assessments three times per year and are used as universal screeners to assess student learning gaps, needs, develop annual growth targets, and monitor student progress over time. i-Ready is a comprehensive assessment and instruction program that empowers educators with the resources they need to help all students succeed.

With the return to full-time in-person instruction, there is a need for our teachers to continue to receive comprehensive professional development and coaching to improve teacher expertise, ensure implementation of evidence-based pedagogical strategies to engage our students in the learning process and improve student academic outcomes.

As a result of the analysis of multiple types of data we have identified the need to continue to build and strengthen leadership and teacher capacity with CGI Mathematics to improve student academic outcomes across all student groups in alignment with the school’s mission and educational program.
